PORTFOLIO COMMENTARY

The Fund posted negative returns for the first quarter as did the benchmark, the MSCI ACWI Sustainable Development Index. Global markets were unsettled by the conflict in the Middle East and the subsequent closure of the Strait of Hormuz, a critical conduit for global oil and gas supplies, which materially disrupted global trade. As a result, the quarter saw broad-based stress across financial markets.

Our impact funds, Rockefeller Climate Solutions and Nordea Global Climate & Environment, were the strongest performers over the quarter. Nordea's performance was supported by the fund's exposure to renewable energy, including holdings such as MasTec and Vestas Wind Systems. Renewable energy benefitted from the closure of the Strait of Hormuz, as it reinforced the strategic importance of domestic and secure energy supply. In addition, heightened volatility and the spike in oil and gas prices improved the relative cost competitiveness of renewables, particularly utility scale solar and wind. This theme also supported adjacent and enabling areas within the energy transition, including grid infrastructure as well as transmission and distribution assets.

Areas of the strategy that held up less well were those with a strong emphasis on high quality businesses, particularly those in industries where there are concerns about AI disruption. Fundamentals for most of these businesses are healthy, and our expectation is that resilient earnings results and guidance in the coming quarters will see a number of these companies re-rate.

1. The MSCI ACWI Sustainable Development Index (GBP Net Total Return) was introduced as a secondary benchmark on 01/05/2025. With effect from 24/03/2026, it has become the Fund's benchmark. The Investment Manager considers this index to be a more appropriate benchmark for the Fund's investment exposure.

2. The OCF is the Annual Management Fee plus additional fund expenses as a percentage of the assets of the fund. This gives an indication of annual expenses. This figure may vary over time. It excludes portfolio transaction costs.

INVESTOR PROFILE

The Fund is appropriate for all investor types, including those with only a basic knowledge of funds, it is compatible with investors who do not need a capital guarantee (investors must be prepared to accept fluctuations in the value of capital, including the ability to bear 100% capital loss) and looking for capital growth. Due to the volatility of markets, investors should be willing to accept price fluctuations in exchange for the opportunity of potentially higher returns. This is a long term investment. Investors should have an investment time horizon of at least 5 years. The recommended holding period does not provide any guarantee that the objective will be achieved. This product is eligible for all distribution channels (e.g. investment advice, portfolio management, non-advised sales and pure execution services).

The fund is unlikely to be appropriate for those who:

- Are looking for full capital protection or full repayment of the amount invested, and those who want a guaranteed return
- Have no risk tolerance
- Who are unwilling to accept price fluctuations (volatility) in the value of the fund
- Do not intend to invest for the long term

OUTCOME OF FAIR VALUE ASSESSMENTS (2025)

Our assessment confirms:

- The Fund meets the needs of the target market.
- The intended distribution strategy remains appropriate.
- The Fund provides fair value to customers.

RISK PROFILE

The Fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up.

The Fund may enter into derivative agreements with counterparties, and consequently there is a risk that a counterparty may fail to meet its obligations. This may lead to delays in the Fund receiving amounts due to it, receiving less than is due or receiving nothing. Investments in underlying funds contain the same market and liquidity risks associated with the underlying investments. The Fund may be subject to a liquidity risk due to the manner and timing of potential redemptions from the underlying funds. Underlying funds may be entitled to delay acceptance of redemption requests or payment of redemption proceeds from the Fund. The Fund may be subject to valuation risk due to the manner and timing of valuations of the Fund's investments.

Sustainability Risk - The Fund may be subject to sustainability risk, meaning an environmental, social or governance ("ESG") event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of an investment. For full details of the Fund's risks, please see the prospectus and supplement sections entitled 'Risk Factors'

IMPORTANT INFORMATION

This is a marketing communication. Please refer to the prospectus and the KIID of the UCITS before making any final investment decisions. The Global Responsible Investment Fund (GRIF) changed its name from the Global Sustainable Equity Fund (GSEF) on the 1st December 2022. On 1 May 2025 the Fund changed its name to the Global Select Equity Fund (GSEF). The distribution or possession of this document in jurisdictions outside the United Kingdom may be restricted by law or other regulatory requirements. The Fund intends to invest principally in a range of underlying collective investment schemes. Please refer to the prospectus for details of the investment policy.

All investments risk the loss of capital. No guarantee or representation is made that the Fund will achieve its investment objective. The value of investments may go down as well as up and, for products designed to return income, the distributions can also go down or up and you may not receive back the full value of your initial investment. Derivatives may be used for efficient portfolio management. The Fund invests in assets which are denominated in other currencies; hence changes in the relevant exchange rate will affect the value of the investment. Past performance is not a guide to future returns. If the information is not displayed in your base currency, then the return may increase or decrease due to currency fluctuations.

The Fund promotes environmental and social characteristics and has been classified by the Manager, working in conjunction with the Investment Manager, as a product in accordance with Article 8 of the Sustainable Finance Disclosure Regulations ("SFDR").
