

OUR FOUR FUNDAMENTAL QUALITY PILLARS - IDENTIFYING GLOBAL BEST OF BREED BUSINESSES

INVESTMENT OBJECTIVE

The Fund is a feeder fund investing only in the Stonehage Fleming Global Best Ideas Equity Fund ("Master Fund"), managed by Stonehage Fleming Investment Management Limited. The Master Fund seeks to achieve long-term growth in capital and income in a focused portfolio of high quality listed businesses from around the world.

INVESTMENT PHILOSOPHY

We invest in best of breed businesses for their quality, strategic competitive edge and value.

FUND COMMENTARY

Microsoft has been in the list of our top ten holdings for a while. Some may wonder why we added another technology name to our concentrated list of outstanding businesses.

As our investment strategy clearly states, we invest for sustainable long-term growth in free cash flow generation. The particular sector under which a business is officially classified is of little interest to us – it is purely about the specific quality characteristics of the business under consideration.

In this context, index providers have just over the weekend changed the sector classifications for some of our businesses. Alphabet and Walt Disney now find themselves classified as Communications businesses, not Technology and Discretionary businesses respectively. Our view of these businesses does not change one iota because of this, but those with an eye for detail may note that our official exposures to these sectors have dropped as a result.

Microsoft's composition of business drivers has changed materially over the recent past. These changes have happened on three fronts predominantly. Their Azure commercial cloud business has developed into a strongly growing cash generating business unit. It makes a meaningful contribution towards the group's excellent free cash flow conversion ratio of over 100%.

Along with this, the conversion of their Office 365 business model from a one-off highly priced ticket item to a monthly low-priced subscription model is making the same product much more affordable, and with better access to technology updates for the client. Furthermore, the leadership culture has shifted to a more open and inclusive one of learning and support amongst business associates and clients, away from a more aggressive sales culture.

We are strongly attracted to annuity income type of businesses. Our impression is that Microsoft is today a much better sustainably growing free cash flow generator than a few years ago and we can view it as an above-average dividend growth business trading at a market related yield.

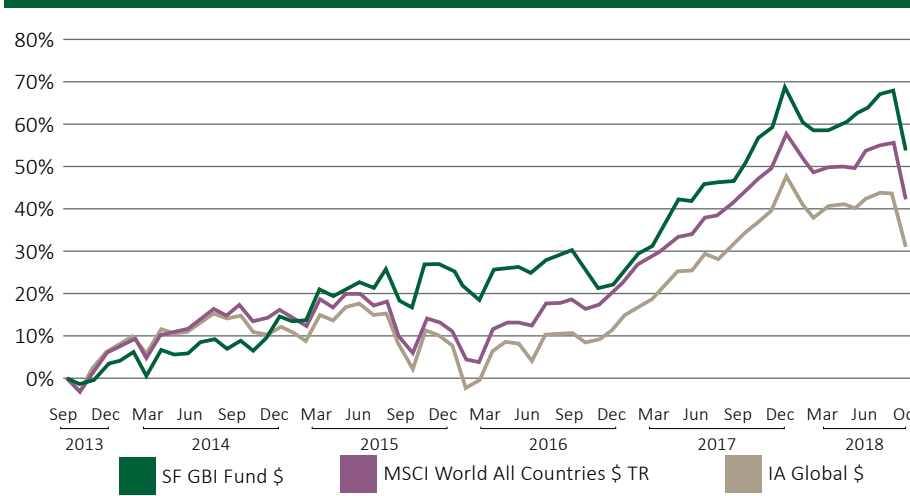

INVESTMENT STRATEGY

- Invest for sustainable organic growth
- Fundamental research driven
- Particular focus on quality of management, balance sheet strength, return on invested capital, free cash flow generation, ability to grow dividends each year
- Bottom-up approach to identify exceptional businesses
- Global orientation, with emerging market exposure
- High conviction concentrated portfolio
- Predominantly larger capitalisation businesses, also consider exceptional medium-sized ones
- Buy to hold and disciplined selling
- No benchmark orientation, no active trading, no leverage, no hedging

PERFORMANCE AND ASSET ALLOCATION OF FEEDER FUND

This Fund invests solely into the Stonehage Fleming Global Best Ideas Equity Fund. The performance details of the Fund cannot be shown before the 12 month anniversary of the fund being 1 November 2019. The Fund intends to invest at least 97% of all cash received in the Master Fund and hold not more than 3% cash. The performance details of the underlying Master Fund is as follows:

Total Expense Ratio (TER)	1.697%	1.122%
Estimated Transaction Costs (TC)	0.01%	0.01%
Total Investment Charges (TIC)	1.707%	1.132%

¹ Advice fees are negotiable between the client and their adviser. Annual advice fees are paid through the purchase of units from the investor. The fund is available through certain LSPs which levy their own fees. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Financial Product, the investment decisions of the investment manager and the TER. Disclosed performance information is calculated after all fees and costs deducted.

DISCLOSURES AND ADDITIONAL INFORMATION

A Feeder Fund is a portfolio that invests in a single portfolio of a collective investment scheme, which levies its own charges and which could result in a higher fee structure for the Feeder Fund. The management of investments is outsourced to Stonehage Fleming Investment Management (South Africa) (Pty) Ltd, FSP 42847 an authorized Financial Services Provider under the Financial Advisory and Intermediary Services Act, 2002.

All reasonable steps have been taken to ensure the information on this MDD is accurate. The information to follow does not constitute financial advice as contemplated in terms of the Financial Advisory and Intermediary Services Act. Use or rely on this information at your own risk. Independent professional financial advice should always be sought before making an investment decision.

The Sanlam Group is a full member of the Association for Savings and Investment SA. Collective investment schemes are generally medium- to long-term investments. Please note that past performances are not necessarily a guide to future performances, and that the value of investments / units / unit trusts may go down as well as up. A schedule of fees and charges and maximum commissions is available from the Manager, Sanlam Collective Investments (RF) Pty Ltd, a registered and approved Manager in Collective Investment Schemes in Securities. Additional information of the proposed investment, including brochures, application forms and annual or quarterly reports, can be obtained from the Manager, free of charge.

Collective investments are traded at ruling prices and can engage in borrowing and scrip lending. Collective investments are calculated on a net asset value basis, which is the total market value of all assets in the portfolio including any income accruals and less any deductible expenses such as audit fees, brokerage and service fees. Actual investment performance of the portfolio and the investor will differ depending on the initial fees applicable, the actual investment date, the date of reinvestment of income as well as dividend withholding tax. Forward pricing is used. The Manager does not provide any guarantee either with respect to the capital or the return of a portfolio. The performance of the portfolio depends on the underlying assets and variable market factors. Performance is based on NAV to NAV calculations with income reinvestments done on the ex-div date. Lump sum investment performances are quoted. Source: Money Mate. All the portfolio options presented are approved collective investment schemes in terms of Collective Investment Schemes Control Act, No 45 of 2002 ("CISCA"). The fund invests in foreign countries and therefore it may have risks regarding liquidity, the repatriation of funds, political and macroeconomic situations, foreign exchange, tax, settlement, and the availability of information.

The Manager has the right to close any portfolios to new investors to manage them more efficiently in accordance with their mandates. The Manager retains full legal responsibility for the co-named portfolio.
