

OUR FOUR FUNDAMENTAL QUALITY PILLARS - IDENTIFYING GLOBAL BEST OF BREED BUSINESSES

INVESTMENT OBJECTIVE

To achieve long-term growth in capital and income in a focused portfolio of high quality listed businesses from around the world.

INVESTMENT PHILOSOPHY

We invest in best of breed businesses for their quality, strategic competitive edge and value.

PERFORMANCE DISCLOSURE

Simulated past performance and past performance is not a guide to future performance. The value of investments can fall. Investors may not get back the amount invested. Income from investments may vary and is not guaranteed. The return may increase or decrease due to currency fluctuations. Performance figures are net of fees and charges. The Fund may hold a relatively small number of stocks as compared to many other funds. This may make the Fund's performance more volatile than would be the case if it had a more diversified investment portfolio. For a full list of risks applicable to this fund, please refer to the Prospectus.

FUND COMMENTARY

Our philosophy is designed to buy outstanding quality businesses that can grow on a sustainable basis. The intention is to hold them until they may become overvalued. McDonald's has been in the Fund's list of top ten holdings for a long time.

It is often the sustainability of a simple business model that delivers better than what many may expect. In the case of McDonald's, the model is to own the majority of the restaurant properties and to franchise the restaurant operations to independent franchisee groups. Dividends are funded only from rent income, with any excess rent and the franchise royalty income utilised to reinvest in the business, to cover marketing and relatively low operating costs and to buy back shares.

As simple as this model may sound, it is very supportive of sustainable growth in different forms. It creates an ideal landlord-tenant relationship in the sense that they are practically business partners working in the best interests of both parties. It also creates a very stable cash flow stream, with less risk of losing a tenant than in most other property businesses. The discipline of paying dividends only from rent income creates a cash flow buffer to finance future growth.

Of course, enduring success of the restaurants is absolute key for continuing organic growth. In this context, McDonald's invested heavily in product quality and evolved its menu to offer healthy choices, while its scale ensures competitive pricing of its products. Home delivery also has become a new growth avenue.

The share delivered a total return of +28.1% p.a. over the past five years, compared to +12.9% p.a. for the MSCI World AC index and +17.4% p.a. for the S&P 500 index (all in GBP terms). The dividend has been raised each of the past 43 years, making it one of the world's few Dividend Aristocrats.

INVESTMENT STRATEGY

- Invest for sustainable growth
- Fundamental research driven
- Particular focus on quality of management, balance sheet strength, return on invested capital, free cash flow, ability to grow dividends each year
- Bottom-up approach to identify exceptional businesses
- Global orientation, with emerging market exposure
- High conviction concentrated portfolio
- Predominantly larger capitalisation businesses, also consider exceptional medium-sized ones
- Buy to hold and disciplined selling
- No benchmark orientation, no active trading, no leverage, no hedging
