INVESTMENT OBJECTIVE

The Fund aims to achieve capital growth over the longer term by investing in companies that are progressively becoming more sustainable therefore creating a portfolio that is aligned to the UN Sustainable Development Goals**.

INVESTMENT STRATEGY

- We construct globally-orientated portfolios of long-term investment ideas.
- We blend passive, factor and active market exposure targeting a strong performing yet impactful portfolio.
- We are conviction led investors with all investments carefully assessed for purpose and purity.

MANAGER PERFORMANCE HIGHLIGHTS

GRIF outperformed global equities in Q4 2023 as the outperformance of Growth as well as small and mid-caps and the weak performance of the Energy sector were relative tailwinds for the strategy. The relative headwind of being underweight the “Magnificent 7”¹ was also less extreme. Most underlying managers outperformed broader global equities over the quarter, with Regnan Global Equity Impact Solutions particularly strong, helped by a number of investments into environmental names, which were helped in part by COP28’s missive to “transition away from fossil fuel”.

OUTCOME OF FAIR VALUE ASSESSMENTS (2023)

Our assessment confirms:

- The fund meets the needs of the target market.
- The intended distribution strategy remains appropriate.
- The fund provides fair value to customers.

INVESTOR PROFILE

The fund is appropriate for all investor types, including those with only a basic knowledge of funds. It is compatible with investors who do not need a capital guarantee (investors must be prepared to accept fluctuations in the value of capital, including the ability to bear 100% capital loss) and are looking for capital growth. Due to the volatility of markets, investors should be willing to accept price fluctuations in exchange for the opportunity of potentially higher returns. This is a long term investment and investors should have an investment time horizon of at least 5 years. The recommended holding period does not provide any guarantee that the objective will be achieved. This product is eligible for all distribution channels (e.g. investment advice, portfolio management, non-advised sales and pure execution services).

The fund is unlikely to be appropriate for those who:

- Are looking for full capital protection or full repayment of the amount invested, and those who want a guaranteed return
- Have no risk tolerance
- Who are unwilling to accept price fluctuations (volatility) in the value of the fund
- Do not intend to invest for the long term
